

Long Term Plan Year 10 Chinese

Subject driver: To learn a language is to have one more window from which to look at the world - Chinese Proverb

Please be aware that MFL has 4 skill areas which are developed over the course of the programme of study. Listening, Reading, Speaking and Writing alongside grammar are developed through thematic units covering specific content.

Students will constantly build on prior learning, recycling high frequency verbs and vocabulary to aid the automation process and lead to improved student outcomes. They will be supported by sentence builders and complete retrieval practice to help make key vocabulary and structures stick.

Teachers need to ensure that basic vocabulary and structures are secure to allow for Higher tier extension.
